Your wedding ring comparison

Take this record to a fitting. Use one column per ring or quotation.

Compare the actual specification. Keep the seller's answers with the quote.
Ask where depth is measured; do not assume the same width means the same ring.

AT THE FITTING

Try the ring beside any engagement ring. Note contact, pressure or catching.

Write "included" beside included services and "confirm" beside unknown costs.
This record organises questions; it does not confirm authenticity, suitability or final fit.
